

# Manager Cloud Cover Letter

769 Richie CornersKemmerton, KY 86805

**Dear Dakota Lynch,**

I submit this application to express my sincere interest in the manager cloud position.

In my previous role, I was responsible for advice, guidance and direction to provision AWS, Azure, and hybrid cloud instances and migrate workloads to ensure schedule attainment, performance and budget targets are met.

Please consider my experience and qualifications for this position:

- Be a Microsoft Certified Professional or have an Azure Solutions Architect certification
- Experience with multiple clouds (e.g., Microsoft Azure, Amazon Web Service (AWS))
- Experience migrating complex large scale applications into the cloud
- Experience with Microsoft Azure Express Route
- Experience with delivery of an enterprise product line using Agile-Scrum development methodologies
- Understand technical and business requirement as a Product Manager
- Working with Cloud security
- Significant Project Management experience in the ICT Infrastructure and telecommunications industry

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Avery Carter
