

# Manager, Data Strategy Cover Letter

4419 Silas Street Willmsport, CO 92713-0127

**Dear Hayden Durgan,**

I would like to submit my application for the manager, data strategy opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for strategic technical direction to ensure effective utilisation of asset management related data and planning information and information products.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong background working with complex and large data sets
- Financial services or asset management experience
- Technical expertise regarding data models and database design development techniques
- Extensive SAS and SQL programming skills
- Previous modelling and/or data management experience preferred
- Experience with Pharmacy Industry related business practices, data and pricing methodologies
- Experience establishing and maintaining key relationships with internal (peers, business partners and leadership) and external (business community, clients and vendors) within a matrix organization to develop strategies that meet department goals within budget and timelines
- Experience developing ways of accomplishing goals with no supervision, depending upon oneself and proper delegation to resolve issues to ensure completed objectives and determining when escalation of issues is necessary

**Thank you for considering me to become a member of your team.**

Sincerely,
