

Manager IT Audit Cover Letter

8319 Juan Spur Christiansenland, ND 58525-9730

Dear Ryan Wunsch,

In response to your job posting for manager IT audit, I am including this letter and my resume for your review.

Previously, I was responsible for assurance and insight to the Audit Committee and senior management on high risk IT areas through objective verbal and written communications.

My experience is an excellent fit for the list of requirements in this job:

- Strong technical knowledge of internal controls, business processes, and COSO and COBIT frameworks
- Enterprise Risk Management (ERM) concepts
- Strong IT auditing expertise
- Highly developed and effective interpersonal skills for dealing with potentially sensitive and controversial issues
- A collaborative, team oriented leadership style
- Proficient with Enterprise Resource Planning Systems (ERP)
- Experience in access control software, security architecture and administration in network security aware and enforcement, security policies and standards, and varying databases and operating systems
- Professional certification, ideally CISA, and/or CIA, ACA equivalent

I really appreciate you taking the time to review my application for the position of manager IT audit.

Sincerely,

Dakota Schaden
