

Manager IT Audit Cover Letter

4107 Erdman CourseGussieport, MS 04659

Dear Haven Kerluke,

I submit this application to express my sincere interest in the manager IT audit position.

Previously, I was responsible for data analytics thought leadership and support to the Group Internal Audit team to enable continuous assurance.

Please consider my experience and qualifications for this position:

- Experience with ACL data analytics toolset
- Detailed understanding of industry accepted IT governance standards
- Detailed understanding of internal auditing standards & requirements, as set out by IIA
- Internationally recognized auditing qualification such as CIA, CISA, CISM, or CISSP
- Professional certification of (CISA, CISSP, CIA or CPA)
- Relative product knowledge (e.g., Technology Strategy and Operations) and understanding of associated business risks is preferred
- Experience auditing operating systems, databases, cloud computing, network and virtualization technologies
- Flexibility to travel, as necessary

Thank you for considering me to become a member of your team.

Sincerely,

Emery Orn
