In the previous role, I was responsible for mental health case management services to children and adolescents with severe emotional disturbance (SED) and to their families.

- Provide individual psychotherapy within a short-term or brief treatment model
- Refer and/or transition care as appropriate for students whose needs are beyond clinic's scope of care
- Develop and lead therapy groups
- Experience and comfort working with victims of interpersonal violence, with racially and ethnically diverse populations, and with LGBTQ clients
- Familiarity and practical experience working with models of time-limited and evidence-based psychotherapy
- Education to qualify for Occupational Therapist licensure
- Vehicle insurance

I really appreciate you taking the time to review my application for the position of mental health therapist.
