

Metrology Technician Cover Letter

4099 Walter PikeDietrichburgh, IN 25001

Dear Dakota Parker,

I am excited to be applying for the position of metrology technician. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for training and advice for repair, calibration, and modification of the wide variety of complex precision measurement equipment utilized by the GOK activities.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Able to work with precision and handle fragile equipment
- Able to work independently and with high integrity regarding calibration data and results
- Able to prepare accurate and concise calibration and maintenance records
- PHYSICAL REQUIREMENTS / WORK ENVIRONMENT (if applicable)
- Fast learner and capable of supporting Metrology tools on their respective shift, with Limited In-house training provided on these toolsets
- PMEL training preferred
- ISA Instrumentation Certification preferred
- Work experience with R&R and MSA and Dimensional Inspection N2 certification will be differentials

I really appreciate you taking the time to review my application for the position of metrology technician.

Sincerely,

Lennon O'Reilly
