

Metrology Technician Cover Letter

9958 Schamberger GlenPort Robynburgh, MD 84057

Dear Haven Block,

I am excited to be applying for the position of metrology technician. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for support to manufacturing and design areas in development of appropriate measurement methods, including implementing of new methods, analyzing existing measurement methods, and executing training as required.

Please consider my qualifications and experience:

- Basic understanding of ASME Y14.5 - Geometric Dimensioning and Tolerancing (GD&T)
- Experience with 3D CAD software is beneficial
- Able to work weekends and overtime if needed
- Good communication skills, both verbally and written in English (additional languages are a benefit)
- Strong technical interest combined with common business sense
- Understand basics of calibration
- Understand terminology used within the electronics industry
- General Knowledge with spatial analyzer software or similar software

I really appreciate you taking the time to review my application for the position of metrology technician.

Sincerely,

Parker Miller
