Middleware Administrator Cover Letter

929 Howe PointNorth Gayebury, CO 92856-6065

Dear Sawyer Dicki,

I submit this application to express my sincere interest in the middleware administrator position.

Previously, I was responsible for escalation support to application teams for deployment/performance tools such as: IBM Urban Code Deploy, HP LoadRunner, SOAP UI, IBM/Apache JMeter, IBM Memory Analyzer, IBM Support Assistant.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- F5 BigIP Admin
- Java Application development/debugging/troubleshooting
- Atlassian Confluence/JIRA Installation and Admin
- Avalanche RFGun Administration
- Minimum of BS in Computer Science and/or related Engineering technologies
- Performed Bug result Analysis, verified bugs, closed fixed bugs and reopened unfixed bugs
- Remarkable experience with JBoss 4.3 to 7.0 administrations
- Opened PMR with IBM and worked with IBM for permanent solutions, determined true problem Management and recommend permanent solutions

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Lennox Yundt
