

# Mining Engineer Cover Letter

844 Bins ExpresswayBechtelartown, CA 82275

**Dear Royal Swift,**

I would like to submit my application for the mining engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for support to operations and projects in areas of mine design, mine planning, equipment selection, cost analysis and implementation of best practices.

Please consider my qualifications and experience:

- Minimum 5 yrs engineering experience in mining, propulsion system or equipment design, or related industry
- BS Mechanical Engineering, Physics, or related Engineering field
- Proficient in AutoCAD, Autodesk Map, Excel and Access or similar software
- Intermediate level of engineering knowledge, experience and creativity such that by applying standard techniques and basic methods, detailed work assignments and routine projects can be handled
- Require a minimum of supervision except in areas, which are of a unique aspect
- Record of strong safety performance and familiarity with implementing established safety systems
- Requires strong reasoning and critical thinking
- Strong Software skills in design and Optimization, Preferably Vulcan, Minemax, Whittle

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Drew Schinner
