

Mining Engineer Cover Letter

26448 Ortiz Station East Remonaborough, MI 08417-7549

Dear Alexis Nicolas,

I am excited to be applying for the position of mining engineer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for high-level technical advice to internal and external clients within the areas of mine closure, mine water management and erosion and sediment control.

Please consider my qualifications and experience:

- Experience in the management and specification of surface and underground mine infrastructure and related equipment
- Previous mining business development experience
- Excellent organizational, oral, written (technical writing) and analytical skills
- Working knowledge of internationally recognised fire protection standards
- Extensive risk engineering at field level with experience in Mining business - both underground and open cast
- Rock mechanics and ground control instrumentation, installation, and data analysis
- Ventilation system design and troubleshooting
- Specialized Knowledge and/or skills in design, repair, and troubleshooting of high voltage (13.8V/4160V) equipment/systems, PLC, communication, and control systems

Thank you for considering me to become a member of your team.

Sincerely,

Briar Runte
