

# Mining Engineer Cover Letter

307 Leigh OverpassLelahport, TN 46396-3408

**Dear Lennox Gulgowski,**

I would like to submit my application for the mining engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for engineering services with respect to mine waste management and task management with input from senior staff.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in modelling solutions for predictive maintenance
- Good knowledge and practical experience with SPSS and R or Python
- Participated in projects run in SCRUM/Agile
- Lead, or be a member of, a team of materials handling engineers, designers and drafters in the execution of engineering design activities, to provide high quality deliverables within agreed budgets and schedules
- Apply technical expertise in undertaking materials handling calculations to provide viable design solutions, which are communicated through reports and presentations to clients
- Previous experience with MMC systems
- Demonstrated experience in the mining industry
- Project leadership and delivery experience

**Thank you for taking your time to review my application.**

Sincerely,

Armani Schaden
