

Modeling Analyst Cover Letter

800 Britany Fields West Wilfordborough, AL 77677-6320

Dear River Haag,

I am excited to be applying for the position of modeling analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for guidance and direction related to statistical analysis to less experienced Strategic Data & Analytics staff as needed.

Please consider my experience and qualifications for this position:

- Entrepreneurial drive and excellent problem-solving, organizational and analytical skills
- Programming experience, preferably with data extraction/mining tools
- Using data captured by the Data Manager (Data Management unit) studies data and assesses ways to improve or expand databases (capturing data from hardcopy, other documentations)
- Demonstrated teamwork and collaboration in professional setting
- Strong communications & leadership skills needed to influence & lead others & to promote change
- Strong programming skills, specifically in SAS and/or SQL
- P&C insurance industry background with working knowledge of automobile and/or homeowners insurance
- Strong analytic skills, especially in predictive modeling and data mining techniques

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Emery Beer
