

Modeling Analyst Cover Letter

19758 Anderson Creek Balistrerishire, VT 96433

Dear Reese Gerlach,

I am excited to be applying for the position of modeling analyst. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for analysis using fundamental statistical methods and techniques or business intelligence tools to prove hypothesis.

My experience is an excellent fit for the list of requirements in this job:

- Expert knowledge in several statistical techniques (Generalized linear modeling, Time Series, CART, Decision Trees, Neural Networks)
- Factor analysis experimental design, hypothesis testing, and/or advance techniques)
- Familiar with data analysis tools and industry data sources
- Familiar developing analysis queries and procedures in SQL, SAS, BI tools or other analysis software
- Knowledge in 2 or more statistical techniques (Generalized linear modeling, Time Series, CART, Decision Trees, Neural Networks, Factor analysis experimental design and hypothesis testing)
- Design Conceptual and Logical Data Models representing business needs
- Design Physical Data Models that meet both the business and technology needs
- Work with Data Base Administrators / Data Engineers in implementing physical databases/structures

Thank you for taking your time to review my application.

Sincerely,

Story Koch
