

# NASA Cover Letter

40667 Bode MountainSouth Caylaville, LA 94984-9860

**Dear Royal Haley,**

I would like to submit my application for the NASA opening. Please accept this letter and the attached resume.

Previously, I was responsible for analytical support to the program management team regarding platform engineering capabilities, functions, and solutions.

My experience is an excellent fit for the list of requirements in this job:

- Develop simulations and test beds by utilizing NASA-developed middleware
- Maintain NASA in-house developed middleware utilized for developing simulation test beds
- Lead scoping, planning efforts and designing NASA ground launch systems simulation test bed
- Working knowledge of QEMU
- Exceptional in C and C++
- Experience with Wind River products such as VxWorks and Simics
- Knowledge of NASA middleware and their applications
- Should have a good understanding of government procurement, federal contracts, regulations and procedures, and DoD/NASA operations and maintenance services

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

River Wunsch
