**Dear Marion Doyle,**

I would like to submit my application for the national operations opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical guidance and support of business processes, applications, and projects from concept, through design, testing, documentation, validation and implementation.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of outbound call programs, training and metrics
- Experience working with online applications and systems
- Experience in leading and participating in major cyberinfrastructure (CI) development and deployment activities within a production quality HPC environment
- Experience leading a software development effort
- Demonstrated experience in the management of a large CI-related activity
- People Leadership – Large, national, complex organizations that span Multiple geographies
- Influencing the system – Collaborate with internal senior leadership
- Customer and Franchise Leadership-Develop and advance relationships with key external senior leaders

**Thank you for considering me to become a member of your team.**

Sincerely,

Shae Doyle
