

# **.NET Senior Developer Cover Letter**

5243 Brown Loaf West Harry, CO 71267

**Dear Reese Gislason,**

I am excited to be applying for the position of .NET senior developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for hands on development and Agile implementation of new applications/services and enhancements to/or existing applications and services.

Please consider my qualifications and experience:

- ESRI ArcGIS technologies
- RDBMS esp
- Full ADL (application development lifecycle) start to finish
- Experience of developing modern web applications utilising client-side technologies including HTML5, JQuery, AngularJS, LeafletJS
- Experience of server side applications utilising Microsoft .NET and C#
- Experience of working with relational databases, specifically SQL Server
- Strong understanding of the software development life cycle, including requirements analysis, use case modeling, functional specifications, database modeling / design, process modeling, structured programming and testing
- Good understanding of configuration and release management techniques

**I really appreciate you taking the time to review my application for the position of .NET senior developer.**

Sincerely,

Lennon Bergstrom
