.NET Software Engineer Cover Letter

5685 Luciana GatewayWillianborough, NH 62654

Dear Zion Weissnat,

Please consider me for the .NET software engineer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for level 2 & 3 support for your application, working closely with product and account management teams.

Please consider my experience and qualifications for this position:

- Experience with Git and Git-flow will be an advantage
- Knowledge of Continuous Integration / Continuous Deployment and Sitecore platform will be an advantage
- Comfortable with working to deadlines
- Intimately familiar with .Net / c# & MVC development
- Diagnose and troubleshoot problems with both proprietary / internally-developed systems, licensed systems
- Development of fixes and minor enhancements
- Work in a team of developers under the direction of a team lead/architect
- Develop, test & debug software features, applications and solutions

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Shae Johns
