Network Development Cover Letter

457 Harvey FieldsTommyville, NV 01769

Dear Finley Mayert,

I would like to submit my application for the network development opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for network performance assessment following major network changes to ensure any negative performance impact is quickly identified and mitigated.

Please consider my qualifications and experience:

- The person should have the skills or develop an interest to understand legal topics, liaise with lawyers in order to manage the project of the change in dealer margin structure in relation to the dealer agreement and various international franchise laws
- Experience in Core Java and Java Swings essential
- Strong knowledge about networking technologies and protocols (such as TCP/IP, HTTP, TLS, Adaptive Bitrate Streaming, Traffic Replay, GTP)
- Good problem solving skills, know how to debug on Linux OS with GDB
- Good understanding of data structures, algorithms, and Linux Operating systems
- Proficient C/C++ coding skills
- A good team player, a self-motivator, and with strong passion of learning new techniques, developing and delivering high-quality software
- Strong knowledge about networking technologies and protocols

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Drew Aufderhar
