

Network Development Cover Letter

8338 Krajcik ManorShaniceview, PA 21063-5579

Dear Baylor Graham,

I would like to submit my application for the network development opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical Support during major incidents and troubleshooting assistance for complex long term issues impacting network performance.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong knowledge about computer security, including malware and network attacks
- Good problem solving skills, know how to debug on Linux OS
- Proficient in Microsoft Office (Outlook, Power Point, Visio, Excel, Word), Adobe, and Quickbase
- Strong working knowledge of product development experience
- Knowledge and vision regarding the changing healthcare payment and delivery model including value-based reimbursement, risk-based arrangements, population health dynamics, provider organization relationships, advanced technology support and other elements of accountable care
- Aptitude to link business value with technology
- Cisco Certified Internetwork Expert / Certified Information Systems Security Professional (CISSP)
- Network Management experience based on technology from Aistia, Cisco, F5

Thank you for your time and consideration.

Sincerely,
