

# Network Engineer Voice & Network Cover Letter

8391 Ernie AlleyBashirianburgh, NY 10613-6482

**Dear Finley Hessel,**

Please consider me for the network engineer voice & network opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for expert level technical support for communication platforms, including CallManager, Unity Connections, voice circuits including PRIs and SIP Trunks.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Voice Cloud Technologies
- Good verbal and written communication skills, able to work in a team, possess cross-culture experience, project management skills
- Intermediate knowledge of voice technologies IP telephony, SIP and QoS on LAN and WAN
- In-depth experience implementing and troubleshooting voice technologies
- In-depth understanding of IP data, voice, and video networking concepts and systems is preferred
- Experience with WAN technologies such as MPLS, Ethernet, T1's, and LTE
- Knowledge on based network applications such proxy servers, Network monitoring tools (What's Up Gold, SolarWinds ORION, Cisco Prime)
- Strong knowledge of BGP, OSPF, EGIRP routing protocols

**I really appreciate you taking the time to review my application for the position of network engineer voice & network.**

Sincerely,

Onyx Stanton
