

Network Security Administrator Cover Letter

10770 Alameda Junction Domingoton, TX 29979

Dear Emery Torp,

Please consider me for the network security administrator opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for security guidance and drive infrastructure decisions in collaboration with other technical and management teams, ensuring Security principles are being upheld and no violations of Security Policy is taking place.

Please consider my qualifications and experience:

- The hiring manager is in need for a security IT resource with CyberArk experience to assist with Privileged Identity Management skillset. CyberArk is a preferred skillset
- Attend strategy meetings, and update project documentation
- Will also lead collaboration meetings with Stakeholders, build program governance, and work through issues, problem solving, and escalation
- Provide leadership and mentoring to the various administration teams and to ensure consistency and accuracy of requests and suggest modifications to current processes to provide additional technical controls
- Can develop and effectively enforce quality control measures that adhere audit compliance standards
- Generate reporting material to satisfy and resolve audit demands
- Deploys new, advanced technological solutions to increase efficiency of controls
- Tier 3 or 4 support in troubleshooting/support efforts for end users of PIM solution

Thank you in advance for reviewing my candidacy for this position.

Sincerely,
