

# Node JS Developer Cover Letter

2429 Hilpert KeyKesslerhaven, NY 61915-6759

**Dear Riley Paucek,**

In response to your job posting for node JS developer, I am including this letter and my resume for your review.

In the previous role, I was responsible for navy Joint National Training Capability (JNTC) technical representation to JS J7 technical working groups specifically addressing technical issues identified for Navy's accreditation/certification (A/C) joint training programs (Fleet Synthetic Training [FST], Joint Task Force Exercise [JTFEX], and Air Wing Fallon [AWF]).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with RESTful APIs, GIT
- Design and Develop new web services components using Node JS, Express JS, Mongo DB, Micro services and Azure Cloud
- Participate in agile processes like story grooming, sprint planning, daily scrum, troubleshoot production issues
- Migrate legacy C# code to Node JS / Mongo DB platform with Micro service architecture
- Spring Framework and multiple products within the Spring ecosystem
- Spring Integration and Spring Boot platform experience preferred
- Highly prefer previous experience in Microservices development
- AWS Lamda OR backend API web services development using Fastify/HAPI/Express or similar Solid Programming Concepts

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,
