

# NPI Project Manager Cover Letter

140 Von RestDietrichton, MD 65026

**Dear Sutton West,**

In response to your job posting for NPI project manager, I am including this letter and my resume for your review.

Previously, I was responsible for structure for product excellence that surpasses industry trends in order to bring Xerox into the additive manufacturing limelight.

My experience is an excellent fit for the list of requirements in this job:

- Excellent project management skills with experience of using project management tools such as MS Office
- Experience in a dynamic, fast paced manufacturing environment using pragmatic & practical problem solving skills
- Results orientated, self-motivated, drive and initiative and 'Can do' attitude
- Broad cross-functional business experience within relevant sectors
- Knowledge of a regulated industry, such as pharmaceuticals, cosmetics, medical devices or food & beverages
- Competent with effective stakeholder management
- Methodical approach and able to communicate priorities and maintain focus
- Achieved or willing to study towards a professional project management qualification

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Greer Gislason
