

NPI Project Manager Cover Letter

838 Wilderman Throughway Feeneyport, RI 15695

Dear Skyler Streich,

In response to your job posting for NPI project manager, I am including this letter and my resume for your review.

Previously, I was responsible for training and written instructions/standard work related to new products to manufacturing personnel for critical processes, as required, in order to develop and/or maintain process capability.

Please consider my experience and qualifications for this position:

- Production Operations Knowledge - Has a firm understanding of how complex production lines operate including key items such as industrial workings between facilities/departments, line balance, OEE, error proofing
- Understanding of how the manufacturing validation process runs in relation to new products (methodology, validation plans, associated KPIs)
- Good understanding of design for manufacture, process design, process validation, and assembly methods
- Interpersonal skills dealing with all levels of an organization
- Able to be a creative thinker and devise creative solutions to complicated problems
- Previous experience with ERP systems (SAP, Oracle, etc) is beneficial
- Work with cross functional teams within North American and CM's around the world to support completing NPI & technical support tasks
- Confidence reporting out to cross-functional and production leadership on project performance against objectives

Thank you for taking your time to review my application.

Sincerely,

Avery Rosenbaum
