

Nurse Tech Cover Letter

2607 Heathcote SpringsSchmidtport, AZ 79176

Dear Ryan Fisher,

I submit this application to express my sincere interest in the nurse tech position.

In my previous role, I was responsible for psychiatric nursing, ability to relate to patients, ability to use the nursing process, the ability to problem solve, direct non-professional staff and request help, as needed.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Attending to patients "daily living, personal hygiene and simple human needs
- Performs, monitors, reports and documents all clinical activities within assigned tasks and permitted by Nursing Skills Checklist
- May retrieve and transport medications
- Obtains, labels and transports a variety of samples

I really appreciate you taking the time to review my application for the position of nurse tech.

Sincerely,

Justice Zemlak
