**Dear Charlie Botsford,**

I would like to submit my application for the office architect opening. Please accept this letter and the attached resume.

Previously, I was responsible for a secure and scalable end user computing platform through usage of SCCM, Enterprise Mobility Suite (EMS), Office 365, Azure Active Directory.

Please consider my qualifications and experience:

- Proficient in C#, WCF, Web API, Entity Framework, .NET framework and scripting technologies, such as javascript, jquery, or AngularJS
- Analyze requirements, architect solutions, implement and test final technical solutions
- Perform the customization of SharePoint web parts using MS Visual Studio and other modern techniques
- Proficient in SQL Reporting Service
- Conceptualize, propose and work with managers to implement better web design policy, and practices
- Able to independently manage and operate a SharePoint environment
- Advise client on alternate methods of meeting their needs or recommend specific solutions
- Develop plans for SharePoint upgrades, requirements, maintenance, operations, and support issues

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,
