

Oncology Manager Cover Letter

3152 Dietrich Junctions West Joanie, KY 90817

Dear Spencer Brekke,

In response to your job posting for oncology manager, I am including this letter and my resume for your review.

In my previous role, I was responsible for clinical care, nursing consultation and education as it relates to oncology care and radiation therapy delivery.

Please consider my experience and qualifications for this position:

- Develop, track, and successfully implement marketing strategies in line with the Global strategy
- Contribute to EU Markets and European Brand Teams and participate in international projects
- Supervise and support the sales team to ensure that the Action Planning (including execution), the promotional meeting program, and brand messages are aligned with the overall Launch Brand Plan
- Realize promotional tools and remain in control of them
- Prepare, control, and take personal responsibility for sales and promotional budgets accuracy
- Ensure that these objectives are met in full compliance with laws, regulations, and BMS Standards of Business Conduct and Ethics
- Pharmaceutical / Biotech experience with knowledge in oncology preferred
- Proven track record in growth and highly competitive markets with in-depth understanding of the market area, especially with competitors

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Sam Von
