

Operations Advisor Cover Letter

6646 Kenneth Shoal South Berry, CO 62199-1047

Dear Campbell Yundt,

In response to your job posting for operations advisor, I am including this letter and my resume for your review.

In my previous role, I was responsible for leadership, in partnership with IT, on initiatives to upgrade order management ERP modules and phone system/contact centers across the Division.

My experience is an excellent fit for the list of requirements in this job:

- Expert knowledge of CBRN defense operations and consequence management
- Proven track record of supporting Sales organizations
- Knowledge of business and sales processes, operations, tools and guidelines preferable
- Experience of HSE requirements is an advantage
- LNG plant experience desirable
- Development and implementation of safety related procedures
- Awareness of incidents and emergencies management
- Root cause analysis of any related operations problem

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Blake Borer
