

# Operations Tech Cover Letter

592 Sharon ForksWiegandberg, IA 62466-4792

**Dear Cameron Prosacco,**

Please consider me for the operations tech opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for daily support for all administrative and operational duties required for the safe and efficient operation of site operations.

My experience is an excellent fit for the list of requirements in this job:

- The worker is subject to extreme cold (Temperatures typically below 32 degrees for periods of more than one hour), and extreme heat (temperatures typically above 100 degrees for periods of more than one hour)
- Occasionally works in close quarters, crawl space, manholes, (areas which could cause claustrophobia)
- Medium voltage knowledge 12/24 Vdc
- PLC and Ladder Logic proficient
- Keen understanding of current production, post, vfx, prod accounting workflows and how technology is used (and will be used in future) and a knowledge of production/post production infrastructure requirements
- Participate in rotating call out schedules
- Worked on monitoring and reporting tools like Zabbix, Splunk, App Dynamics, Nagios, Sensu, Graphite
- Works effectively in with a global teams

**Thank you for taking your time to review my application.**

Sincerely,

Parker Kuvalis
