

# Operations Tech Cover Letter

416 Miguel ForgesSouth Tedberg, NE 66261

**Dear Story Senger,**

I submit this application to express my sincere interest in the operations tech position.

Previously, I was responsible for daily support for the needs of all administrative and operational duties required for the safe and efficient operation of site operations.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge and skill to effectively operate, maintain, inspect and repair wastewater collection gravity mains, force mains, lift stations
- Demonstrated understanding of collection system software, databases, and/or spreadsheets
- Strong event and incident management skills including monitoring, troubleshooting and diagnostic skills
- Intermediate level technical knowledge of network/communications infrastructure, hardware, software and operating systems
- Strong understanding of Microsoft office products and Windows
- Knowledge of IBM Tivoli Netcool and BMC Remedy or comparable event and service management tools
- Demonstrate knowledge of all facets of power plant operations
- Employees will progress through the various steps of this classification based on their demonstrated knowledge, skills and abilities

**Thank you for taking your time to review my application.**

Sincerely,

Blake Wilkinson
