Dear Casey Douglas,

In response to your job posting for oracle cloud, I am including this letter and my resume for your review.

Previously, I was responsible for new product service interface to design and development teams on all new product introductions.

Please consider my experience and qualifications for this position:

- Call routing and precision queueing
- Finesse, gadets and other agent UI's
- Cisco SQL Schema, CUIC, and custom reporting
- Cisco UCS and VMware
- Experience in PaaS development in both Java Cloud Service and Database Cloud Service
- High level of expertise in Servlet architecture
- Knowledge of Networking domain related to fundamental networking protocols like TCP/IP is preferred
- Knowledge of AIM or equivalent project implementation methodology and deliverables

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Emerson Thompson
