Dear Campbell MacGyver,

In response to your job posting for penetration tester, I am including this letter and my resume for your review.

Previously, I was responsible for technical leadership to the team and works with the Application Security testing management in improving efficiencies within the team.

Please consider my experience and qualifications for this position:

- OSCP, OSCE, or OSWE or SANS Certification preferred
- Team and penetration testing activities
- Learned and recommendations to the team lead for inclusion in SOPs and process documents
- Experience with mobile and cloud environments
- Hold CREST certification (CCT or CRT) or other equivalent industry recognised qualification
- Programming skills and experience in common web programming languages ASP .NET , PHP, Python, Java, C#, etc
- Any other related skills and experience in application, operating system, database management
- Network and Web protocol knowledge (TCP/IP, UDP, HTTP/S, HTTP/2, OAuth, SAML, JWT, CORS, Web Sockets)

Thank you for taking your time to review my application.

Sincerely,

Sawyer Batz
