

Penetration Tester Cover Letter

49775 Ward ManorsBertport, LA 00717-1718

Dear Oakley Adams,

In response to your job posting for penetration tester, I am including this letter and my resume for your review.

In my previous role, I was responsible for periodic training opportunities to Product Security Managers on technical security topics related to attack / defense of products.

Please consider my experience and qualifications for this position:

- Intricate technical knowledge of TCP/IP Networking/Routing, Intranet / Internet Architectures and Segregation Technologies/VLANs, Firewalls, Intrusion Detection, Intrusion Prevention, SQL Databases, Web Servers
- Knowledge of industry IT security standards ISO/IEC 27001 - Information security management, PCI
- Experience with Windows Registry and Windows Group Policy
- Knowledge of VLANs
- Security +, GSEC, CISA, CASP, or CISSP Certification
- CISM, CEH, OSCE, or related certification
- Technical certifications, including MCSE, CCSE, CCSP, or TICSAs
- Shall be able to plan, execute information assurance evaluation tests and document test results in a formal document

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Blake Weber
