

Perl Developer Cover Letter

50778 Kuphal RoadsTrantown, VA 45028

Dear Spencer Greenfelder,

Please consider me for the perl developer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for clear, detailed descriptions of website specifications, such as product features, activities, communication protocols, programming languages, and operating systems' software and hardware.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with Object-Oriented Development and scripting in languages such as Python, Bash or Shell
- Python,PL-SQL,Perl, REST knowledge
- Relevant experience is not a prerequisite for this role
- Strong knowledge in Perl
- Advanced SQL and knowledge of DBMS environments
- Experience with Apache, nginx, HaProxy
- Agile / Scrum dev practice
- Experience with coding in more than one programming language, Python, Java, PERL, C, C++, C#, Ruby, PHP, XML etc

Thank you for considering me to become a member of your team.

Sincerely,

Corey Waelchi
