

# Perl Developer Cover Letter

354 Padberg Street North Deborah, ID 02859-5946

**Dear Zion Keeling,**

Please consider me for the perl developer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for training, technical support, and documentation of information systems to peers and end users.

Please consider my qualifications and experience:

- ANY experience at all with PERL (on Linux preferably) and object-oriented programming
- On the database side, MySQL experience is preferred but, Postgres is fine
- Basic Git knowledge (what is GIT, how version control systems works and why they are critical in developer's daily work)
- User-level knowledge of Linux environment
- Jenkins, GIT and Gerrit knowledge is valuable since these are the tools we work with on daily basis (all open source)
- Knowledge of user authentication and authorization methods between multiple systems, servers, and environments
- Understands the concepts and necessity of compliance controls and requirements
- Prefer experience in web application development and a solid understanding of web application development processes (not just operating in a web environment)

**Thank you for your time and consideration.**

Sincerely,

Rory Bechtelar
