Perl Developer Cover Letter

360 Roscoe PointsEast Shannanfurt, WA 33899

Dear Ryan Thiel,

I am excited to be applying for the position of perl developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for timely updates to project manager and work with the project manager and technical lead and other senior developers to deliver on time and within budget, making changes as necessary.

Please consider my qualifications and experience:

- Demonstrated professional experience in software development using Perl and at least one other language
- Design and development experience in Perl, Java, Java Script, XML, HTML/CSS, webservice, SQL, Unix and Linux
- Understanding networking protocols and connectivity preferred
- Understanding Server and Client OS and interaction, virtualization, performance and capacity management strongly preferred
- Knowledge of CVS and Git (strong) Version Control Systems
- Design and documentation of code
- OOP(Object Oriented Programming)in Perl
- For the web role, require experience in web application development and a solid understanding of web application development processes

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Emerson Streich
