Perl Developer Cover Letter

906 Botsford RoadNorth Modesto, NE 48249

Dear Peyton Jacobs,

I would like to submit my application for the perl developer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for support and maintenance of existing systems, assisting in the diagnosis and resolution of critical production issues.

Please consider my experience and qualifications for this position:

- B.E / B.Tech in Electronics / E&C / Computer Science / Information Science
- Should have motivation to build career in ADAS domain
- Knowledge of AppDynamics, Tomcat, Apache
- Strong knowledge and experience off working on both Windows and Unix platforms
- Solid Understanding of IIS and Windows Services
- Any prior experience working with client screening applications such as Bridger highly desirable
- Experience working with DB's such as Oracle, SQL Server, DB2 and hands on experience in wring DB queries, stored procedures and basic fine tuning
- Have experience with C, Perl, Bash, or Oracle - looking to utilize this experience and grow into a core JAVA programmer

Thank you for taking your time to review my application.

Sincerely,

Emerson Schaefer
