

Post Doctoral Research Associate Cover Letter

75850 Stroman LoopRockytown, MI 33175

Dear Sam Senger,

Please consider me for the post doctoral research associate opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for consultation and direction to programmer/analysts with regard to data management and analysis strategies.

My experience is an excellent fit for the list of requirements in this job:

- Research associates are actively encouraged to present their research at internal and external meetings
- Completion of Ph.D./D.Phil
- Commitment to continuous professional improvement
- PhD in molecular, cellular, computational, or systems biology or a related field (applications accepted from individuals with dissertation defenses scheduled)
- At least one first author peer-reviewed publication
- Proficiency in genomic data analysis
- Knowledge of the theories, principles, and concepts of molecular/cellular and/or computational biology
- Background in molecular and plant biology

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Emerson Hartmann
