

Project Management Engineer Cover Letter

18807 Kirlin HillMarcelfort, AZ 26452-7584

Dear Onyx Donnelly,

I am excited to be applying for the position of project management engineer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for expertise and leadership for manufacturing equipment acquisition and process development, especially as related to electrical and electronic systems.

Please consider my qualifications and experience:

- Understanding of basic networking principles
- BS or MS in Computer Science, Software Engineering, Computer Engineering, Electrical Engineering, or equivalent
- Experience with ballistic missile defense operations and interconnectivity
- Excellent Japanese/Korean communication skills is preferable
- Understanding of Product Change control including PCB and Product Introduction Lifecycle Management experience
- It would be beneficial, although not essential, for applicants to have some relevant industrial experience – summer placements
- Most importantly we are looking for graduates who can display enthusiasm for a career in electrical engineering (especially power engineering) and demonstrate extra-curricular achievement
- Demonstrable previous relevant experience of working in an engineering consultancy on flood risk management, coastal and catchment management or similar water related projects

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Jordan Wunsch
