

Project Management Engineer Cover Letter

97597 Fadel PineVestaton, CA 42651

Dear Hayden Bogan,

I am excited to be applying for the position of project management engineer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for guidance on technical aspects of network infrastructure systems development and integration, ensuring strategies, roadmaps, policies, standards, and practices are properly applied.

Please consider my qualifications and experience:

- Cognizance of cost, schedule, and budget commitments and variance
- Understanding of systems and software development tools (DOORS, Python, ADA, Matlab)
- Experience interacting with domestic and international customers and peers
- Leadership skills - get buy in from a team to create and execute a plan
- Basics of risk management (identify, quantify, and mitigate risks)
- Familiarity with Flight Controls, Flight Management Applications, and/of Flight Management products
- Familiarity with aerospace and avionics
- Experience using project management tools (SAP, MS Project, COBRA)

Thank you for your time and consideration.

Sincerely,

Blake Turcotte
