

Project Management Engineer Cover Letter

416 Jay ForgeSouth Brandon, PA 86649-2801

Dear Emerson Brakus,

I submit this application to express my sincere interest in the project management engineer position.

In the previous role, I was responsible for classical Industrial Engineering support including work flow analysis, work methods and process review.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience using project leadership (AGILE, Waterfall)
- Experience with multiple wafer fab facilities
- Equipment Process and Equipment Engineering Experience
- Facilities Engineering Experience with multi disciplines
- Project Management experience Registration and designation as a MD, PA, NJ or DE Professional Engineer (PE)
- Demonstrated knowledge of wastewater,engineering design and other similar civil engineering designs
- Basic knowledge of types of code and permit requirements in the region and associated compliance experience
- Serving as municipal engineer for a Town or Township in the region

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Landry Satterfield
