Dear Armani Jenkins,

Please consider me for the project manager / business analyst opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for advice, assistance and guidance to programs and project teams delivering new IT projects and effective management of installed IT systems.

Please consider my qualifications and experience:

- Functional knowledge of SQL and relational databases PSQL, Oracle
- Deep practical knowledge of business analysis tools including JIRA, Confluence and Quality Center
- Deep understanding of business case building and benefits realisation
- Practical knowledge of management tools such as MS Project and Navigator desirable
- Professional Business Analysis certifications desirable
- Professional Agile certifications desirable
- Solid MS Office skills in Excel, Powerpoint, and SharePoint
- Projects are around building an end of day pricing app with technology that looks at several inputs to provide a single end of day price for a security

I really appreciate you taking the time to review my application for the position of project manager / business analyst.

Sincerely,

Tatum Tromp
