

# Public Health Analyst Cover Letter

1456 Necole SpringsO'Connerberg, MT 64247-6582

**Dear Jordan Witting,**

In response to your job posting for public health analyst, I am including this letter and my resume for your review.

Previously, I was responsible for administrative, analytic, research or other required support to various teams within Public Health.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Knowledge of Cerner Millennium EHR
- Demonstrated knowledge of Service Desk support methodology
- Experience with statistical techniques including random selection of matched controls in case control studies, survival analysis, analysis of variance and covariance, analysis of repeated measures, correlation, linear, logistic, and Poisson regression, and calculation of odds ratios, relative risk, p-values, interval estimation, and sample size and power estimations
- Experience in epidemiologic study design and execution for the analysis of military datasets
- Demonstrated skills in data management, data visualization
- Experience conducting epidemiologic analyses of computerized datasets using standard packages to import, update, and manipulate datasets
- Requires advanced skills in SAS and graphical packages
- Conduct quality control and manipulation of data including merging, managing, and updating data

**Thank you for taking your time to review my application.**

Sincerely,

Armani Boehm
