QA Intern Cover Letter

8750 Arlene CreekRossshire, MT 64727

Dear Oakley Gleichner,

I submit this application to express my sincere interest in the QA intern position.

In the previous role, I was responsible for testing assistance to the product teams for the creation and execution of performance and load tests for newly developed functionality.

Please consider my experience and qualifications for this position:

- Embedded Software Development, Java/C/C++/JavaScript Programming, HTML5, Cryptography, Unix Programming, Concurrent Programming, Python Programming, Data Communications, Telecommunications, Web Development, Database Design, IP Networks and Security, Software Development Life Cycle or Agile Development
- Drive to succeed in a challenging and fast-paced environment
- Willingness to learn and accept responsibility for personal and professional development
- Knowledge of AVC or HEVC (H264 or H265) encoders is preferred
- Py.test framework knowledge would be significant advantage
- Quality Management System support to include review and processing of change controls, CAPAs, deviations
- Wireless device quality assurance, testing and certification
- Studies in acoustics, sound engineering, maths, physics, electrical engineering or computer science

Thank you for considering me to become a member of your team.

Sincerely,

Landry Maggio
