

QA / QC Engineer Cover Letter

413 Valentin Road South Tobiasstad, MD 11623

Dear Casey Ziemann,

In response to your job posting for QA / QC engineer, I am including this letter and my resume for your review.

In my previous role, I was responsible for continued process engineering support to the execution organizations during the detailed engineering, procurement, and construction phases of the project.

Please consider my experience and qualifications for this position:

- CTQP Concrete Field Inspector Level II (Bridges) or ACI Concrete Construction Special Inspector or Concrete Transportation Construction Inspector
- Fully conversant with quality systems applicable for major refinery project and direct participation in quality audits is essential
- Professional membership, if any would be considered additional qualification
- Demonstrable track record in the delivery of large show room and/or commercial projects encompassing civil/structural works
- A "rounded profile", comfortable with planning, analysis, project controls and managing process and commercial considerations
- ISO9001 certification or equivalent
- ASQ Certification (CMQ/OE, CQA or CQE)
- Excellent command of English and local dialects, both spoken and written

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Rory Willms
