

# QA / QC Engineer Cover Letter

48227 Mayer Shoals East Ellan, ID 97713

**Dear Emerson Thompson,**

I submit this application to express my sincere interest in the QA / QC engineer position.

In the previous role, I was responsible for structural engineering design during concept, design development, detailed design and construction phases of buildings structures projects;.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience within a Manufacturing environment, specifically within QA/QC inspection and auditing of products
- Computer skills and good knowledge in MS Office (Word, Excel, Outlook)
- Worked with project teams under FIDIC Conditions of Contracts as supervision Consultants
- Exposure to Geotechnical investigations works related to highways and bridges for design
- Demonstrate initiative and operate proactively
- Team player, safety conscious and quality oriented
- Experience of testing of materials, preparation of mix designs and analysis of pavement designs and materials related to highway construction projects based on AASHTO Standards
- Assist site by providing technical support or knowledge on issues pertaining to the Final control ESH/QMS programs the site-specific Code and Third Party Quality Programs

**Thank you for taking your time to review my application.**

Sincerely,
