

QA / QC Engineer Cover Letter

34303 Soo CentersRatkechester, SD 61937

Dear Rowan Hegmann,

In response to your job posting for QA / QC engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for all level of civil/structural work (all construction phases) for possible changes in the work.

Please consider my qualifications and experience:

- Should have experience in execution of Ports and Marine Projects
- Should have worked in the role of Quality Control Engineer or equivalent for completed Civil Infrastructure assignments for atleast 5 projects and have the Civil
- Prior experience in a fast-paced environment (utility power engineering or construction preferred)
- To produce welding related QA documentation, Weld Information Sheets and method statements for all emergent work and welding related repairs
- Identify the most appropriate methods for welding/weld repair, giving consideration to quality, productivity and cost effectiveness
- Conduct visual inspections and liaise/advise FLM's, Managers, Project Engineers, clients and their representatives
- To ensure that all quality and inspection criteria are met
- Support the quality assurance department in carrying out technical audits of welding stores and production welding environments to ensure the Business Management System regarding quality is being adhered to

Thank you for taking your time to review my application.

Sincerely,

Greer Trantow
