

Quantitative Developer Cover Letter

2420 Garfield ViewsVidaburgh, AZ 04340

Dear Riley Yost,

I am excited to be applying for the position of quantitative developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for leadership to CCAR methodology and risk IT teams in model development and implementation.

Please consider my experience and qualifications for this position:

- Develop successful partnerships with counterparties in enterprise/credit/market/operational risk in terms of requirements explanation and validation
- Take an active interest in data sourcing & work with data teams to achieve further automation
- Very confident with source controls systems
- Solid understanding of mathematics and statistics is essential
- Basic working knowledge of the financial services industry is helpful
- Experience with one of statistical modeling language
- Experience with column-based databases
- Intellectual curiosity for the world of quantitative research

Thank you for taking your time to review my application.

Sincerely,

Parker Bogisich
