

# Quantitative Developer Cover Letter

967 Milly MountainBenedictland, MS 47556-1574

**Dear Armani Buckridge,**

In response to your job posting for quantitative developer, I am including this letter and my resume for your review.

In my previous role, I was responsible for solutions spanning a variety of asset classes including Rates, Fx , Credit, Commodities and Equities.

Please consider my qualifications and experience:

- C# competency and development experience, including release and change controls
- Familiarity with Axioma (software and API), Bloomberg (Terminal, API, Back Office), and Factset (Portfolio Analysis, Portfolio Servicing, Reporting, Automation, Data Loading and Reconciliation)
- Quick learner who is interested in continual improvement in application development for desktop/web based software or services
- Strong mathematical/algorithmic background
- NET/C# experience is highly desirable
- Expertise in scripting languages (Shell, Python, Perl)
- Good mathematical foundations
- Familiarity with financial products and techniques to model them

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Finley Lakin
