

Quantitative Developer Cover Letter

6716 Eliseo Highway D'Amorefurt, AL 65818-3152

Dear Lennox Donnelly,

I am excited to be applying for the position of quantitative developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for training to internal stakeholders on the Fixed Income division's internal models and capabilities.

Please consider my qualifications and experience:

- Passion for programming
- Strong familiarity with python and programming/computer science
- Strong mathematical and statistical modeling skills, data manipulation/interpretation skills
- The role is to support accelerated development and adoption of a new quantitative analytics library, Omega, which will replace existing analytics libraries
- Design and implementation of quantitative models using C#
- Understanding of large production systems, both from algorithmic and performance perspectives
- Strong programming background in a scripting language (Perl, Python,)
iv. Basic Unix/Linux knowledge (Sysadmin, Shell Scripting)
- Track record working with Equity, Fixed Income or Derivatives/Structured Products systems and business lines

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Sawyer Hodkiewicz
